

Are you interested in a VET COURSE?

Certificate III qualifications provide genuine pathway options for interested students. They can contribute to Stage 2 SACE credits, may support an application to university and, in some industries, can lead directly to employment.

Popular and in-demand industry areas include Allied Health, Early Childhood Education and Care, Hospitality, Community Services, Health Services, Beauty and Hair, Screen and Media, Information Technology and Business.

Some qualifications require placement hours, and for some courses, the full fee must be paid by the student or family.

Step 1 – Choose an area of interest

When you meet with your counsellor, discuss your area of interest as part of your SACE planning and pathway conversation. At this meeting the counsellor will book an appointment for you to see Nav, VET Leader, to progress your VET enrolment application.

Step 2 – Meet with the VET Leader

When you meet with Nav, she will provide information about your chosen VET certificate course and explain the application process and enrolment requirements.

Step 3 – Collect your pathway evidence

To meet the VETRO requirements, you will need to provide evidence of prior career planning and exploration relevant to your chosen VET pathway. Aim to collect at least 7.5 hours of evidence to support your application.

This could include;

- relevant work experience/ part-time work, virtual work experience, volunteering
- completed relevant skills cluster or short course
- successful completion of a Year 10 or Stage 1 subject related to your chosen pathway, including EIF (show reports and any relevant assignments)
- portfolio of relevant student work
- attendance at Immersion activities
- (participation/attendance certificate evidence will be accepted)

This evidence will be required for the completion of Part A of the [School Student VET Referral Form](#) to be completed by the **student's home school**. This will then initiate the VETRO/LLN assessment process.

For Certificate III Screen and Media at MSC

If you need additional pathway evidence to support your VET application, you can complete one or more of the following activities:

- [Industry Immersion Activity](#) (Industry Podcasts and online Tinkercad)

Or access and complete one of the free online courses for:

- [VFX](#)
- [Game Design & Development](#)
- [3D Design foundations](#)

Step 4 – Create your USI (if you don't have one)

- <https://www.usi.gov.au/students/create-your-usi>

Step 5 – Verify your eligibility

Please forward one of the following documents to Nav Virk at Navneet.virk26@schools.sa.edu.au

- Appropriate ID evidence to be sighted/validated includes
- Birth Certificate
- Medicare Card
- Australian Government concession card (issued by Services Australia)
- Current South Australian driver's licence or learner's permit
- Current proof of age card (issued by Service SA)
- Current Australian Passport
